Outlook for **Friday through Wednesday:**

Moderate to locally high heat impacts will continue across **interior** valleys of all regions **Friday through at least the weekend, with some cooling possible statewide by Tuesday**. Dry conditions and locally breezy winds could contribute to elevated fire weather concerns, especially in the mountains, foothills, and southern deserts. **Critical fire weather conditions are possible across northern California on Friday and Saturday due to gusty northerly winds and dry relative humidity, including in the Sacramento Valley. Monsoon moisture could return to southeastern California starting Sunday or Monday, with increased shower and thunderstorm activity possible through the upcoming work week**

Red Cross

- Tuesday night, the Red Cross and our partners cared for more than 500 Californians seeking refuge from wildfires in nearly 30 emergency shelters and campsites. Since July, we've provided nearly 9,900 overnight stays for people in need.
- Many evacuees are choosing to stay in RVs or tents. Anyone who has been affected by the fires is welcome to stop by a shelter to get a hot meal, take a shower and access other support.
- Since the fires began, almost 550 Red Cross disaster workers have supported relief efforts in person or virtually.
- More than 300 disaster responders are still active across the state supporting the current relief operations.

- With the help of partners, the Red Cross has provided tens of thousands of meals and snacks and distributed over 1,700 relief items including comfort kits, fire kits, and other supplies to help people in need.
- Trained Red Cross volunteers are helping evacuees cope as they await news about whether they will have a home to return to. Volunteers are also replacing prescription medications, eyeglasses or critical medical equipment, like canes and wheelchairs, that were left behind in the rush to get to safety.
- Volunteers have already made more than 7,200 contacts providing emotional support, health services and spiritual care for people who've been evacuated.
- The Red Cross has provided financial assistance to more than 1,100 people who have experienced loss due to recent California Wildfires. Financial assistance allows people to make their own decisions and prioritize what their family needs most to start recovering. Funds can help families replace clothes or food, offset transportation costs, or support any other immediate need.

CA-ESF 10: Hazardous Materials***Air Quality Index Map (airnow.gov) – California Environmental Protection Agency (Cal EPA) as of August 26 2021, at 0600 Hours: -***

- California Air Resources Board (CARB) continues to support affected air districts and air quality agencies. A total of 32 portable air monitors are currently deployed (a new monitor was deployed yesterday in the community of Covelo, in Mendocino county) throughout the state to support local air quality agencies and is visiting their equipment storage caches in Redding, Mariposa, Ukiah, Santa Barbara, and Fresno to manage inventories and resupply monitors and supplies.
- Based on yesterday's PM2.5 Air Quality Index (AQI) many communities in the following Northern California counties experienced air quality in the unhealthy to very unhealthy category: Lassen, Plumas, Sierra, Nevada, Placer, El Dorado, Amador, Alpine, Calaveras, Tuolumne, Mono and Siskiyou. Today's forecast predicts improvement of air quality in many of these locations with AQI only in the unhealthy range. The forecast today predicts the geographic scale of unhealthy air in Northern and Northeast California today will be increased, with many counties moving into the unhealthy AQI category from the moderate to unhealthy for sensitive group category.
- The Sacramento Valley, Bay Area, Southern California, and foothill and mountain communities in the Sierra Nevada mountains are expected to receive similar air quality today as yesterday, with AQI predicted to be in the moderate to unhealthy for sensitive groups category. Air quality in parts of San Bernardino, Riverside, Imperial, and San Diego counties are predicted to worsen today with air quality moving into the unhealthy AQI category

- Dixie Fire

- BAER team continuing to categorize and validate Values at Risk along the Southwest corner of the fire.
 - Soil Burn Severity Mapping and USGS Post-Fire Debris Flow Hazard modeling slated to be complete within 1.5 weeks.
 - BAER team is indicating that soil burn severity is greater than expected.
- MRT Requested for CCC to deploy one crew to implement emergency protection measures within the town of Greenville. Deployment slated for September 7, 2021.
- MRT requested for DWR to deploy two flood fighting specialists to identify placement of emergency protective measures on cleared DTSC parcels within the town of Greenville. Deployment slated for September 3, 2021.
- MRT Request for DGS to supply materials and equipment.
- Held CCC | DWR | OES | DTSC Coordination Call yesterday August 24, 2021, to coordinate upcoming lines of effort for the oversight/implementation of emergency protective measures in Greenville.
 - No unmet needs identified by these state agencies and all are postured for upcoming mission tasks.
- WSTF to attend in person RST Kickoff meeting today, August 24, 2021.
- Tamarack Fire
 - Requesting via MRT that DGS provide the following materials to support the remediation of the Musser and Jarvis Watershed in Markleeville (Alpine County):
 - One rubber track Excavator w/ Operator (mid-size or larger)
 - One Forklift w/ Operator (to accommodate the transport of k-rails and suitable for rough terrain)
 - 400 LF of California temporary k-rail
 - 6000 LF of 25' x 8" biodegradable straw wattles
 - 1,700 16" x 1" Wood Stakes
 - One Hydromulcher w/ water cannon w/ operator
 - Hydromulch to cover 23 acres (consists of 46,000 gallons of water, 11,500 lbs of mulch, 6,900 lbs of binder)
 - One Waste Management Bin
 - One Portable Toilet w/ Wash Station w/ Trailer
 - Met yesterday, August 24, 2021, with NWS, DWR, and Alpine County to further coordinate the implementation of USFS approved rain gauges and drill down who is ultimately responsible for these rain gauges once they have been placed. Alpine County Public Works has accepted the responsibility for the implementation and maintenance of the rain gauge. Cal OES and NWS will be providing technical assistance throughout the process.
 - Continuing coordination with the USFS to expedite permitting to allow treatment of the Markleeville Water Company's Watershed, the Musser, and Jarvis Creek.
 - Site visit with Markleeville Water Company tentatively scheduled for Monday, August 30, 2021. The purpose of the site visit is to gather geospatial data to map the water companies proposed BMP treatments on the Musser and Jarvis Watershed. At the request of the BAER team, this mapping needs to occur to

expedite the permitting and NEPA process which would allow for treatments on private property on USFS land.

- Cache Fire
 - 156 vehicles and 137 structures have burned, 57 of which are residences. These burned vehicles and structures are near Cache Creek; therefore, erosion control BMPs must be placed, or a berm must be constructed, to protect the waterway from toxic runoff from the burn area. This area is particularly sensitive as Cache Creek flows directly into Clearlake.
 - CCC tentatively scheduled to be on site September 3, 2021, and September 4, 2021, for placement of BMPs and/or construction of a berm.
- Caldor Fire
 - Preliminary analysis of potential watershed impacts identified the American River South Fork and Cosumnes River watersheds fall within the burn scar.
 - Cosumnes River Watershed - Of particular concern is the potential for toxic runoff from the Grizzly Flat area (est. 300-350 residential structures burned) into the waterway. This watershed flows to the San Joaquin River, then the Sac-San Joaquin Delta.
 - American River South Fork Watershed - Post fire runoff and sedimentation have the potential to negatively impact the various areas of beneficial use, including municipal and domestic supply, irrigation, stock watering, recreational use, warm and cold freshwater habitat, spawning, and wildlife habitat.
 - USFS anticipates deployment of a BAER Team to the Caldor Fire burn scar when conditions permit.
- River Fire
 - NSTR
- Miscellaneous
 - Met with data analytics team to discuss development of WSTF dashboard. Estimated completion date of September 3, 2021.

CA-ESF 15: Public Information Office (PIO)

- Conducted a Facebook live in Placerville, about the importance of using the Mask (N95) in bad air quality conditions.
- Maintaining evacuation numbers, shelters, and messages about Air Quality.
- Updated Cal OES Blog about the new Local Assistance Center opening in El Dorado County.

Office of Legislative and External Affairs (OLEA)

- On August 25, 2021, Cal OES, FEMA, Cal Fire, US Forest Service & Contra Costa Fire Dept. will participate in a Virtual Town hall hosted by Rep. DeSaulnier to discuss the on-going fire season, fire prevention & fire safety.

Office of Access and Functional Needs (OAFN)

- OAFN connected partners from the California Department of Social Services Disaster Services Bureau with Alameda County to explore the incorporation of Functional Assessment Service Teams into their county's response and recovery efforts.
